

HOMEWORK

Island-endemic

Find an animal (or plant) you find interesting that has an island or island-like distribution and prepare a few facts about it:

- Common name, scientific name
- Geographic distribution
- Some short natural history facts (behavior, ecology, whatever triggered your interest)

Prepare to briefly talk about this at the beginning of next class (01/13).

Assigned 01/06

Due 01/13
